🎬 StreamFlow Analytics | Business Intelligence Dashboard

📋 THE BUSINESS PROBLEM

StreamFlow is a fictional streaming platform with 5,000+ users and 50,000+ monthly watch sessions. As the platform scales, leadership needs to answer critical questions:

🔴 RETENTION: Why are users leaving after 30 days?
🔴 REVENUE: Which subscription plans drive the most value?
🔴 CONTENT: What type of content keeps users engaged?
🔴 GROWTH: Which acquisition channels bring high-LTV users? This dashboard provides data-driven answers to guide strategic decisions.

🎯 KEY QUESTIONS ANSWERED

✅ What is our current user base and revenue?
✅ Which creators and content categories perform best?
✅ What is our MRR trend and churn rate?
✅ How well do we retain users over 6+ months?
✅ Which content drives paid subscriptions?

📊 DATA SCOPE

- 5,000 Users | 2,000 Content Items | 50,000 Watch Sessions
- 59,174 Subscription Records
- Time Period: January 2023 - December 2025
- Data refreshed: Daily (simulated)

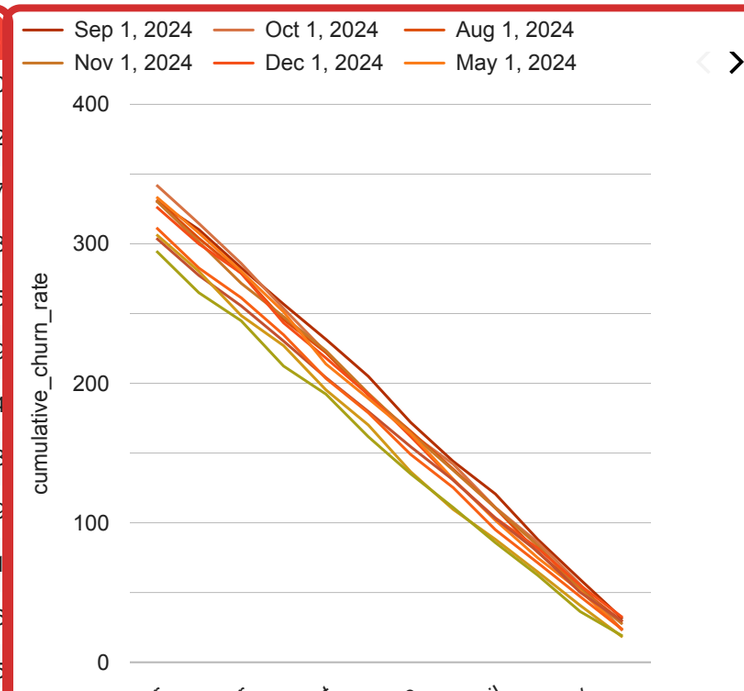
Churn by Cohort



💡 Key Insights & Strategic Recommendations

1. Revenue & Monetization

Insight: User distribution is evenly split across all plans (25% each), yet the Premium tier generates the highest net revenue ($287K) and ARPU. Credit Cards drive the highest transaction volume and revenue contribution.

Action: Launch targeted in-app upselling campaigns aimed at the 50% of users on Free and Basic plans

2. Content & Engagement

Insight: Engagement is heavily skewed toward Mobile (44.7%) and Smart TVs (30.1%), accounting for ~75% of all sessions. Viewing peaks during Morning hours, driven largely by Kids content, which dominates total views.

Action: Optimize mobile and TV user experience. Schedule Kids content releases and push notifications during early morning peak hours.

3. Growth & Retention

Insight: The platform maintains a monthly churn rate of 4.3%. User acquisition is highly concentrated in the USA and UK.

Action: Implement automated 30-day lifecycle email campaigns to reduce early churn. Focus marketing spend on high-performing regions (USA & UK) to maximize LTV.
